Intern

**June 2023 - July 2023**

- Involved in design and development of "Global Home Tutors".
  - Demonstrated excellent skills in frontend development(HTML/CSS).
- 

## PROJECTS

### Restaurant order taking system

- Languages used: HTML, CSS, Js, PHP : MySQL
- Restaurant order taking system has the capability of alerting the cook as well as admin if the order has some changes without even communicating. When the Food item is missing from the kitchen such that the particular food is not available then the cook can directly remove it from the list provided to the customer notifying the change to admin as well

### House Price Prediction

- Languages used: HTML, CSS, Js, Python, Flask
- Prediction house prices are expected to help people who plan to buy a house so they can know the price range in the future, then they can plan their finance well.
- In addition, house price predictions are also beneficial for property investors to know the trend of housing prices in a certain location
